

Aged Nuts, Bolts & Shavings #11

22 January 2018

Special Members-only Meeting:

Tuesday 30th January 2018

1 Brightside Rd

10.00 am

Happy New Year! Come and see our brand-new machinery, just installed, to provide for much greater flexibility in our community and self-inspired woodworking projects. This new machinery was kindly funded by the Stevenson Village Trust.

Come and see how our workshop has been set up and understand how it is to work – and what are the obligations of all members when on site.

Bring a pocket-full of cash – you might like to purchase something from our oversupply of donated power tools *at super economic prices*, to assist our funds:

- Dyco saw-bench/buzzer combo;
- Belt sander;
- Hobby saw bench;
- Several bench grinders (some brand new);
- ...and many other hand tools.

You can also enjoy a coffee/tea and chat with your fellow Hibiscus Sheddies

We will be providing the latest update on what we have planned and how our fund-raising is progressing.

We need your input, please, to make the Shed as successful as we know you want it to be, so please consider volunteering a few hours of your time:

- We need guys to act as shift team-leaders and supporters;
- We need volunteers to act as Trustees and/or Trustee Officers;
- ...and we will provide all the training and assistance needed for these essential roles

Talking is good, and we will really appreciate your feedback on what projects we could/should undertake, and we also want to hear your comments on any other issues that you might like to raise.

Remember: This is YOUR Shed, so don't be afraid to speak up. The only wrong questions are ones that don't get asked!

We look forward to seeing you all on the 30th!

Stuart Johnston
Chair
