

Your Shed is now open on Saturdays!

Following the success of our Tuesday and Thursday openings and the demand for (a) more times and (b) flexibility to work on personal projects, the Shed will be opening on Saturdays as from 14th July.

In addition to the good work that we are already doing for community organisations, members will be welcome to also pursue their own personal projects every Saturday morning.

As a Trust, we have obligations regarding health and safety. This means that we need suitably qualified supervisors to be present at all times when we are open and we are therefore very grateful to have the services of Ray Benfiet, Terry Mason and Eric Williams as Saturday supervisors.

We want to be sure that you hit the right nail; and leave with the same number of fingers that you came in with!

Coffee Club – New Venue

Many of you came along to the Coffee Club on 4th July at our new venue in the Red Beach Surf Life Saving Club. Yes, they are refurbishing the entire facility and yes, there was some noise during the last Coffee Club – but we are sure that the

temporary inconvenience will be short-lived. Your \$5 payment for coffee and biscuits allows us to make a donation to the Surf Club, which all helps defray their expenses – and you have to agree that the views from the Surf Club are spectacular.

(We hope the waves don't get quite THAT big!)

Trustees and Support Personnel

Although we've had a reasonably good response to our appeal for more volunteers, there is always room for more – so that we can all share the load of running the Men's Shed successfully and getting that new, bigger and better Shed built. If you feel you can help – even a little – we will always be pleased to have you as a part of our great team.

And Finally:

We have over 230 names on our mailing list, but only around 50 are actually paid-up members. We need more of you to think about joining, please, to help us manage our running costs while we work hard to get your new Shed up and running.
